Catherine, I added this to the resolution...

The TCEQ and EPA are currently reaching out to each water and waste water treatment facility in the impacted areas. Assessments of facilities which are not operational, or have other issues, will be conducted by TCEQ, EPA, and USACE.

With Regards, Steve

Subject: Waste Water Treatment Plant Inundated with Water

A news article is reporting that a Waste Water Treatment Plant in NE Houston is inundated with water, but does not name the Water Treatment Plant. Is this true? Please provide an update? An RFI has been entered into WebEOC.

Thank you,
Cathy Ludwig
